Israel's attacks on Jenin destroy prospects of peace

Media statement 5 July 2023

"AFIC is appalled at the lack of courage amongst the international community which cowers before the state of Israel and remains silent or impotent at bringing Israel to account." Said AFIC President Dr Rateb Jneid.

"Israel and its "friends" can no longer hide behind staged Qur'an burning distractions to divert our attention from the murder of Indigenous Palestinians or destruction of their properties." Said Dr Jneid.

"These distractions will not stop us from condemning the killing of innocent Palestinians and from warning the terrorist state of Israel that its murder of Palestinians will only serve to strengthen our resolve to resist and to highlight the lies of the murderous Israeli terrorist war machine." Said Dr Jneid.
